Dear Scott:

When I called the state, they told me I had applied for a card, but it hasn't been issued yet. I vaguely remember doing that. I know we pulled about 10 permits last year, and I was asked in Franklin, but they gave me the permit without the card. That must have been when I called the state. It's good to have anyway, so it's on its way. In the meantime, my customer will be coming in for the permit. I have faxed you a copy of our proposal for your records. Do you need my insurance records? What kind of inspections will you be requiring on this project? Feel free to call me at anytime.

Yours truly,

Dear Mr. Schoenfield:

It has been brought to our attention that your fence is in need of maintenance. It was observed on April 25, 1991 that several sections of fencing in your rear yard have fallen down. The remaining fence appeared to be in immediate need of repainting, straightening and general maintenance associated with wooden fences.

Fox Point Code Section 33.2 states as follows:

Exteriors. With respect to all buildings or structures including fences, planters, and retaining walls, the owner, occupant or agent shall keep the exterior thereof in a neat and attractive appearance and structurally sound, and including but not limited to, shall repaint or use preservatives on the exterior from time to time as reasonably required to maintain the same, and shall keep stone and brick adequately tuck-pointed and shall keep other building material in a neat and attractive condition.

Please have the above stated fence repaired to satisfy Section 33.2 of the Fox Point Code by May 10, 1991. Failure to comply with this order will result in further action being taken by this Department.

Sincerely,

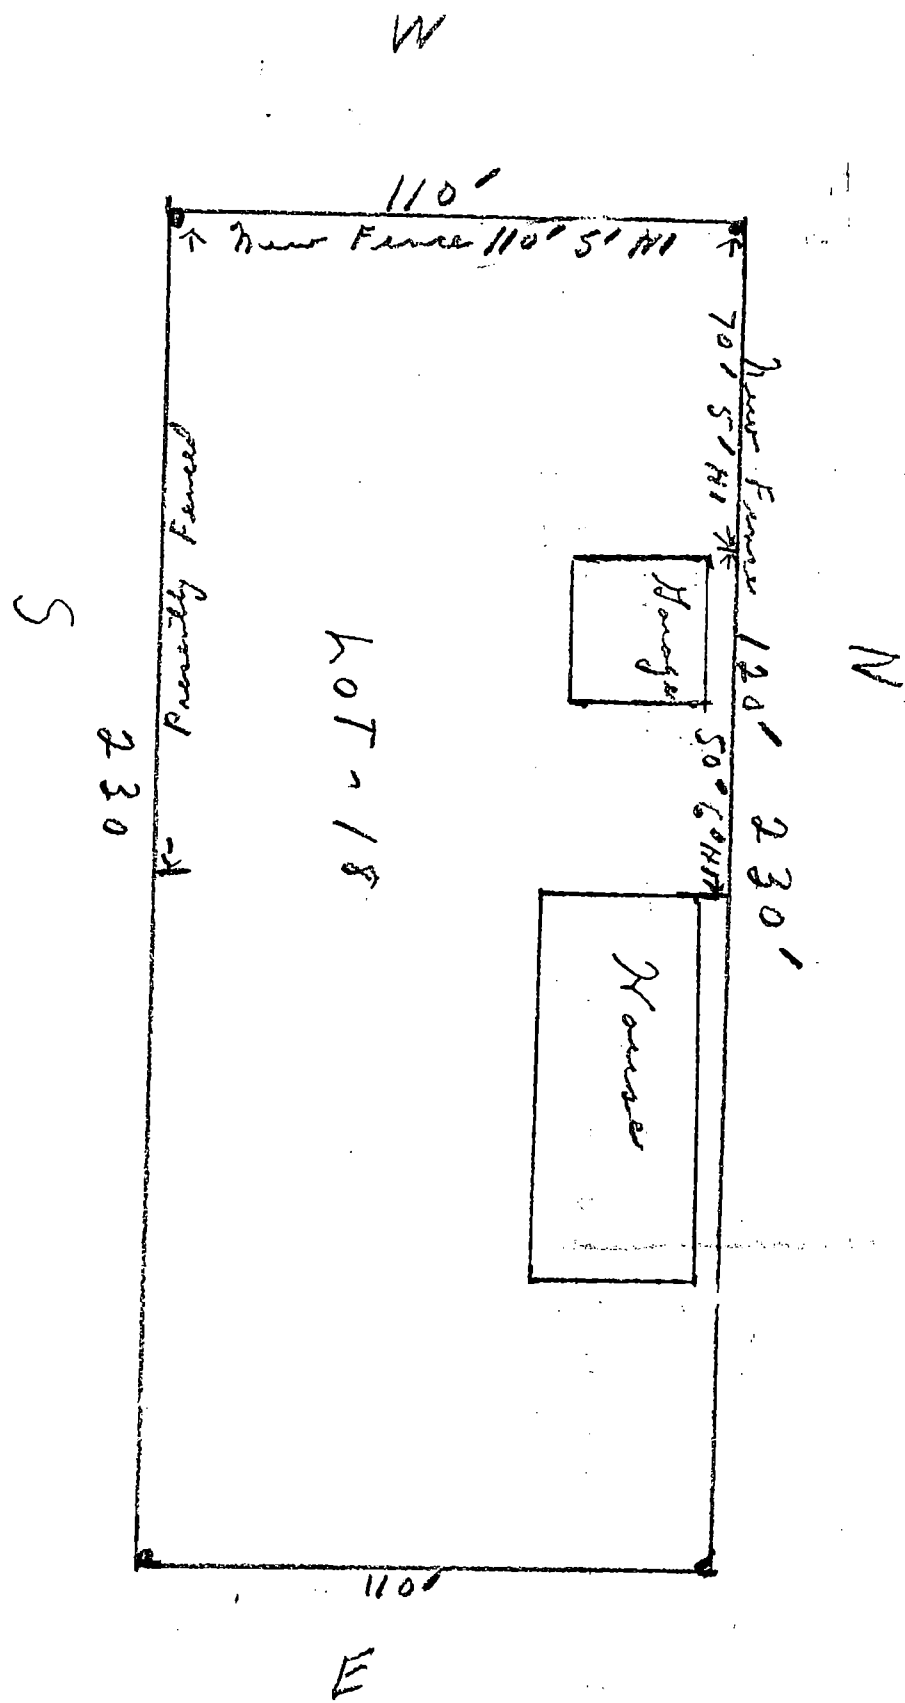

Scott Miller
