**NON COMPLIANCE NOTICE**

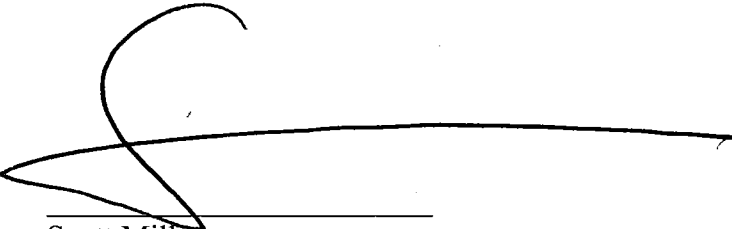

**November 15, 2006**

Issued to: Mary Brodhagen  
Kim Koch

Address: 102 W. Calumet Road

An inspection of the premises located at 102 W. Calumet Road discloses noncompliance with Codes or Ordinances of the Village of Fox Point as hereinafter listed:

1. Please obtain a building permit for the construction of your exterior deck.
2. Please bring the electrical outlet on the east side of your kitchen sink into code compliance.

**CERTIFICATE OF COMPLIANCE**

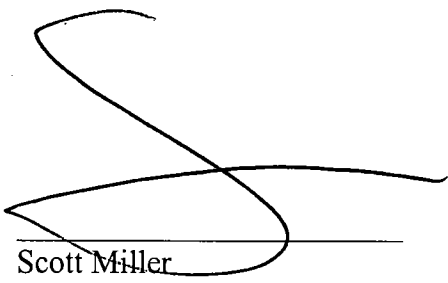

December 7, 2006

NO. 5594

Issued to: Mary Brodhagen  
Kim Koch

Address: 102 W. Calumet Road

This Certificate of Compliance permits a change in the occupancy of the premises at 102 W. Calumet Road, Fox Point, WI, any time within one year from the date hereof, and indicates that so far as can reasonably be determined by a visual inspection of the premises and a review of the Village records, the premises meet the requirements of Section 30P.62 of the Fox Point Building Code. This certificate is issued for the benefit of the Village of Fox Point in the enforcement of Section 30P.62 of the Fox Point Building Code. Neither the Village of Fox Point nor the Building Inspector assumes any liability in or as a result of the inspection or issuance of the Certificate of Compliance and by the issuance of this Certificate of Compliance does not guarantee or warrant as to the condition of the premises inspected.

# APPLICATION FOR BUILDING PERMIT

TO THE BUILDING INSPECTION DEPARTMENT:

The undersigned hereby applies for a permit to build, in accordance with the information tabulated hereafter,

Type of Structure RESIDENCE  
Residence, Garage, Store, Office, School, Fence, Shed, Sign, Swimming Pool, Etc.

Address 102 W CALUMET RD

Lot ..... Block .....

Subdivision .....

District .....

Does contemplated structure violate the Village zoning ordinance?.....

Height of Structure.....(stories or feet)

Width (parallel to highway).....(feet) Depth (perpendicular to highway).....(feet)

Distance: Street Line to Front Line of Structure.....(feet)

Distance: Side Lot Line to Structure.....

Type of Construction: FRAME Exterior finish .....  
Frame, Brick-tile, Etc. Stucco, Siding, Brick Veneer, Etc.

Height of front yard above street grade.....

Number of rooms ..... Baths.....

Estimated cost Garage .....  
Building \$2250<sup>00</sup>  
Structure.....

Is there a private garage?.....

Does the contemplated garage violate the Village zoning ordinance?.....

Size..... Number of stalls.....

Where situated .....

General construction .....  
Frame - Brick - Stucco - Etc.

Have plans been submitted to the Wisconsin Department of Industry, Labor and Human Relations for examination and approval? .....

Have plans been approved as being in compliance with all applicable sections of the Wisconsin Administrative code? .....

Herewith are filed the following duplicate plans.....in number, which I certify I will conform to in the work hereby applied for.

Remarks: FOUNDATION REPAIR REINFORCE PART OF NORTH & PART OF SOUTH WALLS

Herewith are filed the specifications that describe the work in question and as shown on plans above submitted.

In making the application the undersigned agrees to obey the Fox Point Building and Zoning Codes pertaining to the erection of all structures and also agrees to obey all other ordinances of the Village of Fox Point.

The undersigned, owner or being duly authorized so to do, hereby gives express authorization to the Village of Fox Point, its officers, agents and employees, to enter upon the premises herein described and fill up any excavation, or tear down, remove or enclose the unfinished structure for which a permit is herein requested in the event of cessation of the building, whenever the Building Inspector shall determine that such premises in the unfinished condition of the structure are dangerous to members of the public, including children, even though trespassers. The undersigned further hereby waives all statutory notices and consents to the determination by the Village Board and the levy and placing upon the tax roll of a special assessment in the amount of the cost to the Village, including customary Village overhead charges incurred in filling up any such excavation or tearing down, removing or enclosing any such unfinished structure.

We hereby agree to provide a house number plate or sign readily observable from the public highway which will be installed not less than 15 days after the structure is occupied.

Architect, Owner, Builder

All Applications MUST INCLUDE THE  
Following INFORMATION :

- (2.) APPLICATION FOR PERMITS -- Application for a building permit shall be made in writing upon a blank form to be furnished by the Building Inspector and shall state the name and address of the owner of the building and the owner of the land on which it is to be erected, the name and address of the designer and shall set forth a legal description of the land on which the building is to be located, the location of the building, the house number thereof and such other information as the Building Inspector may require. With such application, there shall be submitted, to the Building Inspector, three (3) complete sets of plans, specifications and three (3) copies of a survey.
- (a.) Survey -- The survey shall be prepared and certified by a surveyor or registered by the State of Wisconsin; shall be made, in no case, prior to one (1) year prior to the issuance of a building permit; and shall bear the date of the survey. The certified survey shall also show the following:
1. Location and dimensions of all buildings on the lot, both existing and proposed.
  2. Dimensions of the lot.
  3. Dimensions showing all setbacks to all buildings on the lot.
  4. Proposed grade of proposed structure, to city or village datum.
  5. Grade of lot and of road opposite lot.
  6. Grade and setback of adjacent buildings. If adjacent lot is vacant, submit elevation of nearest buildings on same side of the road.
  7. Type of monuments at each corner of lot.
  8. Water courses or existing drainage ditches.
  9. Seal and signature of surveyor.
- (b.) Plans and Specifications -- All plans shall be drawn to a scale not less than one-fourth (1/4) inch per foot, on paper or cloth in ink, or by some other process that will not fade or obliterate, and shall disclose the existing and proposed provisions for water supply, sanitary sewer connections and surface water drainage. All dimensions shall be accurately figured. Drawings that do not show all necessary detail shall be rejected.

A complete set of plans for residential construction shall consist of:

1. All elevations.
2. All floor plans.
3. Complete construction details.
4. Fireplace details (3/4 inch per foot) showing cross section of fireplace and flues.
5. Plans of garage when garage is to be built immediately or location of garage when it is to be built at a later date.

All plans shall remain on file in the office of the Building Inspector until at least one (1) year after the completion of the building, after which time the Building Inspector may return the same to the owner, may keep them for public record or may destroy them.

- (3.) WAIVER OF SOME REQUIREMENTS -- At the option of the Building Inspector, plans, data, specifications and survey need not be submitted with an application for permit to execute minor alterations and repairs to any building, structure or equipment, provided the proposed construction is sufficiently described in the application for permit.
- (4.) SEAL OF REGISTERED ENGINEER OR ARCHITECT -- All plans, data and specifications for the construction of any building or structure or for any construction in connection with existing buildings or structures, other than one and two family residences containing more than fifty thousand (50,000) cubic feet, total volume, submitted with an application for permit, shall bear the seal of the registered architect or engineer. The plans shall also be stamped as approved as required by the Department of Industry, Labor and Human Relations of the State of Wisconsin. Such building or structure shall be constructed under the supervision of an architect or engineer who shall be responsible for its erection in accordance with the approved plans. No permit shall be granted for such structure unless such construction will be under the supervision of an architect or engineer, as required by the Wisconsin Statutes. A written statement to this effect shall be filed by the architect or engineer, with the Building Inspector, with the application for permit.
- (5.) DRAINAGE
- (a.) Grading of lots -- The plans shall show the present and proposed grades of the lot on which it is proposed to erect the building for which a building permit is sought and of the immediately adjoining property in sufficient detail to indicate the surface water drainage before and after the completion of the grading. No permit shall be issued if the erection of the building and the proposed grades shall unreasonably obstruct the natural flow of water from the surface of adjoining property or obstruct the flow of any existing ravine, ditch, drain or storm water sewer draining neighboring property, unless suitable provision is made for such flow by means of an adequate ditch or pipe, which shall be shown on the plans and shall be constructed so as to provide continuous drainage at all times.

NONCOMPLIANCE NOTICE

February 15, 1991  
Date

Issued to: Patricia Beltran % Mary Ballman

Address: 102 W. Calumet / 6000 N. Port Washington Rd. Milwaukee, WI 53217

An inspection of the premises located at 102 W. Calumet discloses noncompliance with Codes or Ordinances of the Village of Fox Point as hereinafter listed:

1. Provide a code complying sediment trap for gas appliances. Also the chimney connector for the water heater shall comply with code.
2. Provide documentation that the well has been properly abandoned as required by the well code.
3. Restrap plumbing pipe in basement where required.
4. Smoke detectors are required for each floor level including the basement.
5. Provide backflow protection for all exterior hose bibs and laundry tub faucets.
6. Reattach basement electrical box to foundation wall.
7. Provide a permit for the installation of all non-metallic cable installed in this residence.
8. Bathroom outlet shall comply with code.
9. Replace missing drywell above garage service door as required by code.
10. We recommend that positive drainage should be provided for at the perimeter of the house such that rainwater will drain away from the residence. Please note that the code requires a separation of 6" from the wooden siding to grade.

The premises at the above address shall be brought in compliance before there is a change in occupancy. Please notify this office when corrections have been made and a reinspection of the premises for compliance is desired.

## REASONS FOR WELL/DRILLHOLE ABANDONMENT

Wisconsin Adm. Code (NR 111, NR 112) requires well owners to permanently abandon any unused wells/drillholes on their property. The reasons for this requirement are:

- To prevent contamination from entering the well/drillhole at the surface or through corroded well casings and moving downward to an aquifer used by other wells, and
- To prevent vertical movement of water between different geologic formations of differing water quality.

Most licensed well drillers and pump installers have the equipment, knowledge and experience needed to permanently abandon wells/drillholes. We recommend that these licensed contractors be hired to do this work.

## PROCEDURE

1. Remove any pump, pump piping, debris or other obstacles that could interfere with the sealing operation. In most situations the well casing should be left in place. When the casing is removed it should be pulled during the abandonment process so the drillhole does not collapse.
2. The sealing material must be placed with a conductor (tremie) pipe either by pumping or by gravity.
3. The bottom end of the conductor pipe must initially reach the bottom of the well and must be kept submerged in the sealing material as it is placed.
4. Unconsolidated formation wells should be sealed with neat cement grout, concrete grout, concrete or with clay or sodium bentonite slurry. When clay or sodium bentonite slurry is used, the top 20 feet must be sealed with neat cement grout, concrete grout or concrete. Bedrock formation wells should be filled with neat cement grout, concrete grout or concrete.
5. Fill the entire well column from the bottom to the top with the required sealing material.
6. Any standing water in the well will be forced out by the concrete or cement grout (it is more dense) resulting in an entire column of cement to seal the well. The sealing material must flow at the surface with the same consistency as it is being pumped in.
7. The well casing may be cut off several feet below the ground surface.
8. To abandon flowing wells, the flow must be stopped or greatly reduced. This can be accomplished by extending the well casing to an elevation higher than the artesian head, or inserting a seal or packer in the casing. Once the flow has been stopped or reduced, the well can be abandoned the same as other wells.
9. If the well is a municipal well, information regarding drillhole diameter and depths and geologic formations should be submitted on a separate sheet.
10. For use of alternative methods and materials, especially for deep, multi-formation wells contact DNR.

## TEMPORARY ABANDONMENT

- A well may be temporarily abandoned if it is planned to place the well back in service within a time specified by administrative rule.
- Temporary abandonment is accomplished by threading or welding a watertight cover to the casing or by filling the well with a clean clay slurry and then placing a cover over the well.
- If the well is not placed back into service, it should be permanently abandoned unless a written extension is granted by DNR.

## REPORT TO DNR

The Well/Drillhole Abandonment Form 3300-5, on the front, must be completed by the owner (or agent) and submitted to the appropriate DNR district office or delegated county office within 30 days.

This form is authorized by chapters 144 and 162, Wis. Stats. Completion of this report is mandatory. Penalties: Forfeit not less than \$10.00 nor more than \$5,000.00 for each violation. Fined not less than \$10.00 or more than \$100.00 or imprisoned not less than 30 days, or both for each violation. Each day of continued violation is a separate offense, pursuant to ss. 144.99 and 162.06, Wis. Stats.
