## **Guidelines**

Trees on the bluff are not only beautiful to all residents and increase the value of the property, but they help hold the bluff soil intact. It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowner's view. Topping of trees is a very poor running and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard.

It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowner's view. Topping of trees is a very poor running and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard.

May 9, 2003

Mr. Charles James 1080 E. Thorn Lane Fox Point, WI 53217

Dear Mr. James:

I have reviewed your application to construct a fence along your north property line.

In reviewing your application, I observed that you are proposing to build a 6'-00" tall fence forward of the front line of your home. Please note that as per section 14.07(2)(c)(8)(b) of the Village code, the Board of Appeals is required to review and approve your application because your fence is located "beyond the front line of the principle building." Also, I want to make you aware that as per this same code provision, you must provide the Board of Appeals with your neighbor(s) written approval of your fence proposal. This information needs to be submitted to the Village prior to your hearing before the Board of Appeals.

For the forgoing reasons, I am hereby withholding approval of your fence. Please contact the Village Clerk, Constance McHugh, to schedule a hearing before the Board of Appeals.

Please feel free to contact me should you have any questions concerning this letter.

Sincerely,

Scott Miller Inspector

Village Manager Village Attorney Village Clerk File

Guidelines and Village Permit (Control of Cutting on Slope, Chapter 17.11 Village Code)

Trees on the bluff are not only beautiful to all residents and increase the value of the property, but they help hold the bluff soil intact. It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowner's view. Topping of trees is a very poor pruning and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard.

MILWAUKEE COUNTY WISCONSIN

VILLAGE HALL 7200 N. SANTA MONICA BLVD. FOX POINT 53217-3505 414-351-8900 FAX 414-351-8909

Guidelines and Village Permit (Control of Cutting on Slope, Chapter 17.11 Village Code)

Trees on the bluff are not only beautiful to all residents and increase the value of the property, but they help hold the bluff soil intact. It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowner's view. Topping of trees is a very poor pruning and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard.

MILWAUKEE COUNTY WISCONSIN

VILLAGE HALL 7200 N. SANTA MONICA BLVD. FOX POINT 53217-3505 414-351-8900 FAX 414-351-8909

May 20, 1996

Dear Property Owner:

The Village of Fox Point would like to make residents who own property near the lake bluff or a ravine aware that there are Village regulations regarding construction on or over, and control of cutting on, banks or ravines and lake bluff. These regulations may be found in Chapter 17 of the Village Code. Enacted in September 1989, the regulations set forth in Chapter 17 were established "because of the danger of erosion or increasing the erosion of the banks of the ravines and the Lake Michigan bluff, and the possibility of disturbing the natural run-off of surface and percolating water,....to preserve the natural beauty of the ravines and bluffs, and to protect the natural environment...."

In particular, the Village would like to make you aware of Chapter 17.11, titled "Restriction on Cutting" which states in part: "Wherever in the Village the slope of the Lake Bluff or the slope of the bank of a ravine averages 12 degrees or over, no one shall prune, cut, kill, or remove any natural vegetation, including trees, shrubs, bushes, plants, flowers, and grasses without first obtaining a permit as hereinafter provided."

A copy of Chapter 17.11 is enclosed, as well as a <u>sample</u> copy of the permit. A homeowner who wishes to have trees pruned or other work done on the bluff involving plants, is encouraged to hire a certified arborist or other knowledgeable person, if the homeowner is not himself/herself doing the work. It is the homeowner's responsibility to know the location of their property lines and to ensure that the work done is no more extensive than what is described in the permit.

If you would like to obtain a permit or have any questions regarding Chapter 17, please feel free to call the Village Hall at 351-8900 for assistance.

Sincerely,

Susan E. Joyce Village Manager

shall so certify to the Building Inspector. Without such certification, the Building Inspector shall not issue a Building Permit.

17.9 EXTENDING OVER SLOPE OF RAVINE BANK

1

(

(a) A building or structure may be built on the flat area of a lot at the top of a ravine and may be extended over the slope of the ravine bank by cantilevering.

(b) All of the provisions of 17.8 apply to the building of any building or structure, a portion of which will extend over the slope of a ravine.

17.10 RELEASE. Any lot owner whose professional engineer submits a certificate as to safety as provided in 17.6, 17.8, and 17.9 above shall, as a condition for obtaining a Building Permit, give to the Village a release from any liability for injury to persons or damage to property arising from the slippage of soil or building or structure on the lot where the slope and construction thereon was certified as being safe. Such release shall be in a form acceptable to the Village Attorney.

17.11 RESTRICTION ON CUTTING. Wherever in the Village the slope of the lake bluff or the slope of the bank of a ravine averages 12° or over, no one shall prune, cut, kill, or remove any natural vegetation, including trees, shrubs, bushes, plants, flowers, and grasses without first obtaining a permit as hereinafter provided.

(a) An application for the proposed pruning, cutting, killing, or removing shall be filed with the Village Clerk, which application shall give the name of the owner and address of the property on which the work is proposed, and the name of the person, company or corporation who will do the work. The Clerk shall refer the application to the Village Forester. The Village Forester shall examine said application and shall view the location of the proposed work. If, after such viewing, it is the opinion of the Village Forester that the proposed work is minor in nature and primarily for the improvement and care of the plant life involved, he shall issue the permit.

(b) If after the delivery of an application to the Village Forester and a view of the premises as above provided, and the Village Forester is of the opinion that (a) above does not apply, he shall refer the matter to the Building Board. The Building Board shall consider the application at a duly called meeting; notice of said meeting shall be given to the applicant and to the owners of abutting lots. Such notice shall be in writing, mailed not less than 6 days or delivered to a person on the premises not less than 5 days before the day of the meeting. Persons to whom notice is required to be given may attend the Building Board meeting and be heard. If upon the evidence produced at such meeting, the Building Board is of the opinion that the proposed work will not increase erosion or slippage of soil or the danger thereof and will not unreasonably and unnecessarily damage or destroy the beauty of the natural vegetation, it shall direct that the requested permit be issued. Otherwise, it shall deny such permit or may modify the proposed work and authorize the issuance of a permit if the owner agrees to such modifications.

(c) In the event of the absence or inability to act of the Village Forester, the Village Engineer shall perform the functions above given to the Village Forester.

(d) This section does not apply to the areas on which the structure is authorized to be built, the driveway, and an area extending outward from the foundation of such structure by a distance to be approved by the Village Engineer as consistent with the objective of this ordinance on controlling erosion and preserving the natural vegetation on the slope of the bluff or ravine.

17.12 REFUSE. Any refuse, which includes but is not limited to grass cuttings, branches, logs, paper, appliances and rubbish deposited in any manner on the slope of the lake bluff or the slope of the bank of a ravine shall not be permitted and must be removed within forty-eight (48) hours of deposit.

17.13 PENALTY. Any person violating any provision of Section 17.11 and 17.12 shall be subject to a forfeiture of not less than \$100.00 and not more than \$1,000.00. Each act of violation and every day upon which a violation occurs or exists constitutes a separate offense.

17.14 APPEAL.

(

(a) Wherever certification by the Village Engineer is required by the foregoing provision, any person aggrieved by the issuance of such a certificate or refusal to issue such a certificate may appeal to the Board of Appeals, and the provision of Wisconsin Statutes 62.23 (7) as now written or as such provision may be modified from time to time shall apply to such appeal.

(b) In respect to any matter referred to the Building Board by the above provision, appeal from their decision may be taken as provided in 2.09 of the Fox Point Village Code as now written or as it may be amended from time to time.

17.15 APPLICABILITY OF OTHER <u>CODE</u> SECTIONS. The provisions of 2.09 of this Code as now in effect or as the same may be amended, modified, or recreated from time to time shall apply to the issuance of any Building Permit subject to this Chapter. Also, in respect to any construction subject to this Chapter of the zoning ordinance of the Village, Chapter 14 as it now exists, or as it may be amended, modified or recreated from time to time shall apply.

17.16 SEVERABILITY. Should any section, subsection, clause, or provision in this chapter be declared by a court to be invalid, such declaration shall not affect the validity of the chapter as a whole or in any part thereof.

(Chapter 17 was repealed and recreated by Ord. 89-561 adopted on Septemter 12, 1989.)

GUIDELINES AND VILLAGE PERMIT (CONTROL OF CUTTING ON SLOPE, CHAPTER 17.8 VILLAGE CODE)

Trees on the bluff are not only beautiful to all residents and increase the value of the property, but they help hold the bluff soil intact. It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowners' view. Topping of trees is a very poor pruning and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard.

276 - we th

shall so certify to the Building Inspector. Without such certification, the Building Inspector shall not issue a Building Permit.

17.9 EXTENDING OVER SLOPE OF RAVINE BANK

è 🔬 🌣

(

(a) A building or structure may be built on the flat area of a lot at the top of a ravine and may be extended over the slope of the ravine bank by cantilevering.

(b) All of the provisions of 17.8 apply to the building of any building or structure, a portion of which will extend over the slope of a ravine.

17.10 RELEASE. Any lot owner whose professional engineer submits a certificate as to safety as provided in 17.6, 17.8, and 17.9 above shall, as a condition for obtaining a Building Permit, give to the Village a release from any liability for injury to persons or damage to property arising from the slippage of soil or building or structure on the lot where the slope and construction thereon was certified as being safe. Such release shall be in a form acceptable to the Village Attorney.

17.11 RESTRICTION ON CUTTING. Wherever in the Village the slope of the lake bluff or the slope of the bank of a ravine averages 12° or over, no one shall prune, cut, kill, or remove any natural vegetation, including trees, shrubs, bushes, plants, flowers, and grasses without first obtaining a permit as hereinafter provided.

(a) An application for the proposed pruning, cutting, killing, or removing shall be filed with the Village Clerk, which application shall give the name of the owner and address of the property on which the work is proposed, and the name of the person, company or corporation who will do the work. The Clerk shall refer the application to the Village Forester. The Village Forester shall examine said application and shall view the location of the proposed work. If, after such viewing, it is the opinion of the Village Forester that the proposed work is minor in nature and primarily for the improvement and care of the plant life involved, he shall issue the permit.

(b) If after the delivery of an application to the Village Forester and a view of the premises as above provided, and the Village Forester is of the opinion that (a) above does not apply, he shall refer the matter to the Building Board. The Building Board shall consider the application at a duly called meeting; notice of said meeting shall be given to the applicant and to the owners of abutting lots. Such notice shall be in writing, mailed not less than 6 days or delivered to a person on the premises not less than 5 days before the day of the meeting. Persons to whom notice is required to be given may attend the Building Board meeting and be heard. subject to this Chapter. Also, in respect to any construction subject to this Chapter of the zoning ordinance of the Village, Chapter 14 as it now exists, or as it may be amended, modified or recreated from time to time shall apply.

**(** . .

1

17.16 SEVERABILITY. Should any section, subsection, clause, or provision in this chapter be declared by a court to be invalid, such declaration shall not affect the validity of the chapter as a whole or in any part thereof.

(Chapter 17 was repealed and recreated by Ord. 89-561 adopted on Septemter 12, 1989.)

If upon the evidence produced at such meeting, the Building Board is of the opinion that the proposed work will not increase erosion or slippage of soil or the danger thereof and will not unreasonably and unnecessarily damage or destroy the beauty of the natural vegetation, it shall direct that the requested permit be issued. Otherwise, it shall deny such permit or may modify the proposed work and authorize the issuance of a permit if the owner agrees to such modifications.

(c) In the event of the absence or inability to act of the Village Forester, the Village Engineer shall perform the functions above given to the Village Forester.

(d) This section does not apply to the areas on which the structure is authorized to be built, the driveway, and an area extending outward from the foundation of such structure by a distance to be approved by the Village Engineer as consistent with the objective of this ordinance on controlling erosion and preserving the natural vegetation on the slope of the bluff or ravine.

17.12 REFUSE. Any refuse, which includes but is not limited to grass cuttings, branches, logs, paper, appliances and rubbish deposited in any manner on the slope of the lake bluff or the slope of the bank of a ravine shall not be permitted and must be removed within forty-eight (48) hours of deposit.

17.13 PENALTY. Any person violating any provision of Section 17.11 and 17.12 shall be subject to a forfeiture of not less than \$100.00 and not more than \$1,000.00. Each act of violation and every day upon which a violation occurs or exists constitutes a separate offense.

17.14 APPEAL.

(a) Wherever certification by the Village Engineer is required by the foregoing provision, any person aggrieved by the issuance of such a certificate or refusal to issue such a certificate may appeal to the Board of Appeals, and the provision of Wisconsin Statutes 62.23 (7) as now written or as such provision may be modified from time to time shall apply to such appeal.

(b) In respect to any matter referred to the Building Board by the above provision, appeal from their decision may be taken as provided in 2.09 of the Fox Point Village Code as now written or as it may be amended from time to time.

17.15 APPLICABILITY OF OTHER CODE SECTIONS. The provisions of 2.09 of this Code as now in effect or as the same may be amended, modified, or recreated from time to time shall apply to the issuance of any Building Permit

May 20, 1996

Dear Property Owner:

The Village of Fox Point would like to make residents who own property near the lake bluff or a ravine aware that there are Village regulations regarding construction on or over, and control of cutting on, banks or ravines and lake bluff. These regulations may be found in Chapter 17 of the Village Code. Enacted in September 1989, the regulations set forth in Chapter 17 were established "because of the danger of erosion or increasing the erosion of the banks of the ravines and the Lake Michigan bluff, and the possibility of disturbing the natural run-off of surface and percolating water,....to preserve the natural beauty of the ravines and bluffs, and to protect the natural environment...."

In particular, the Village would like to make you aware of Chapter 17.11, titled "Restriction on Cutting" which states in part: "Wherever in the Village the slope of the Lake Bluff or the slope of the bank of a ravine averages 12 degrees or over, no one shall prune, cut, kill, or remove any natural vegetation, including trees, shrubs, bushes, plants, flowers, and grasses without first obtaining a permit as hereinafter provided."

A copy of Chapter 17.11 is enclosed, as well as a <u>sample</u> copy of the permit. A homeowner who wishes to have trees pruned or other work done on the bluff involving plants, is encouraged to hire a certified arborist or other knowledgeable person, if the homeowner is not himself/herself doing the work. It is the homeowner's responsibility to know the location of their property lines and to ensure that the work done is no more extensive than what is described in the permit.

If you would like to obtain a permit or have any questions regarding Chapter 17, please feel free to call the Village Hall at 351-8900 for assistance.

Sincerely,

Susan E. Joyce Village Manager

### GUIDELINES AND VILLAGE PERMIT (CONTROL OF CUTTING ON SLOPE, CHAPTER 17.8 VILLAGE CODE)

Trees on the bluff are not only beautiful to all residents and increase the value of the property, but they help hold the bluff soil intact. It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowners' view. Topping of trees is a very poor pruning and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard.

MILWAUKEE COUNTY WISCONSIN

VILLAGE HALL 7200 N. SANTA MONICA BLVD. FOX POINT 53217-3505 414-351-8900

August 30, 1993

Munson, Inc. Attention: Robert Fetherston 2737 W. Mill Road Glendale, Wisconsin 53209 Dear Mr. Fetherston:

I am writing in follow-up to our several telephone conversations in July and August and in reference to the attached Site Plan.

Acting through me, the Village hereby grants you permission to pave, at no expense to the Village, the southernmost portion of Thorn Lane, which is the area denoted as a yellow rectangle on the Site Plan. In doing so, the Village does not waive or relinguish any rights it may have relative to the roadway or to the Right-Of-Way.

My understanding is that your construction technique will be to pulverize the existing asphalt, then place 2-1/2 inches of binder course asphalt, followed by 1-1/2 inches of surface course asphalt.

Feel free to contact me if I can be of further assistance on this matter. Thank you for your patience.

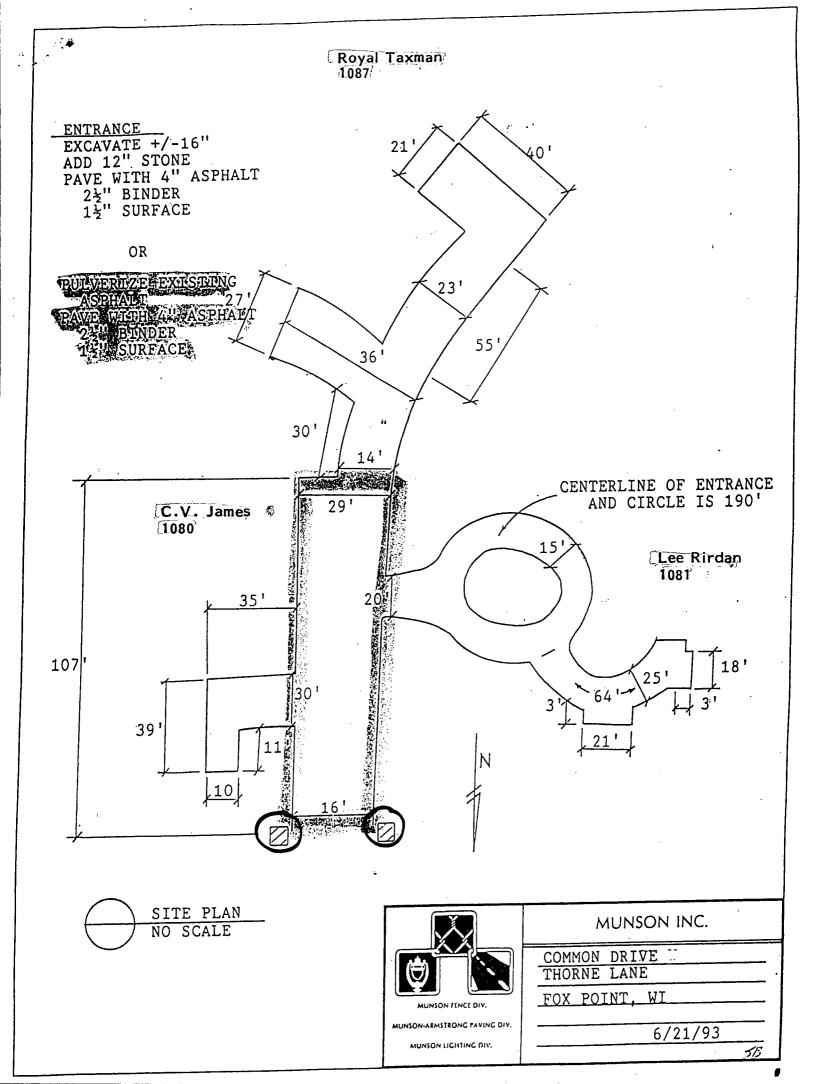

Sincerely, michael (In

Michael K. Lynett, P. E. Village Engineer

### VILLAGE OF FOX POINT

MILWAUKEE COUNTY WISCONSIN

June 18, 2003

VILLAGE HALL 7200 N. SANTA MONICA BLVD. FOX POINT 53217-3505 414-351-8900 FAX 414-351-8909

## NOTICE OF BOARD OF APPEALS DECISION

Village of Fox Point, Wisconsin				
Case No.:	2003-06			
Filing Date:	May 19, 2003			
Hearing Date:	June 16, 2003			

TO: Charles James 1080 E. Thorne Lane Fox Point, WI 53217

The Fox Point Board of Appeals considered your request for a special exception from section 14.07(2)(c)8(b) of the Fox Point Village Code which states pursuant to the Village Code, a fence, wall, architectural screening device or arbor proposed to be located beyond the front line of the principal building may be permitted by the Board of Appeals only after a hearing. The granting of a special exception under this section shall be conditioned upon the applicant obtaining and presenting to the Board at the time of the hearing, the written approval of the proposed location from the owner(s) of abutting property from which there is a direct view of the fence, wall, architectural screening device, or arbor.

Based the evidence provided at the hearing, the Board of Appeals granted your request for a special exception.

The minutes of the Board of Appeals meeting and other related materials were filed in my office and are available upon request.

If you have any questions, please do not hesitate to call me at 351-8900.

Sincerely,

stance KMCHup

Constance K. McHugh Village Clerk

cc: Property File

(b) All of the provisions of 17.8 apply to the building of any building or structure, a portion of which will extend over the slope of a ravine.

17.10 RELEASE. Any lot owner whose professional engineer submits a certificate as to safety as provided in 17.6, 17.8, and 17.9 above shall, as a condition for obtaining a Building Permit, give to the Village a release from any liability for injury to persons or damage to property arising from the slippage of soil or building or structure on the lot where the slope and construction thereon was certified as being safe. Such release shall be in a form acceptable to the Village Attorney.

**IZEN RESTRICTION:ON CUMPING!** Wherever in the Village the slope of the lake bluff or the slope of the bank of a ravine averages 12° or over, no one shall prune, cut, kill, or remove any natural vegetation, including trees, shrubs, bushes, plants, flowers, and grasses without first obtaining a permit as hereinafter provided.

(a) An application for the proposed pruning, cutting, killing, or removing shall be filed with the Village Clerk, which application shall give the name of the owner and address of the property on which the work is proposed, and the name of the person, company or corporation who will do the work. The Clerk shall refer the application to the Village Forester. The Village Forester shall examine said application and shall view the location of the proposed work. If, after such viewing, it is the opinion of the Village Forester that the proposed work is minor in nature and primarily for the improvement and care of the plant life involved, he shall issue the permit.

(b) If after the delivery of an application to the Village Forester and a view of the premises as above provided, and the Village Forester is of the opinion that (a) above does not apply, he shall refer the matter to the Building Board. The Building Board shall consider the application at a duly called meeting; notice of said meeting shall be given to the applicant and to the owners of abutting lots. Such notice shall be in writing, mailed not less than 6 days or delivered to a person on the premises not less than 5 days before the day of the meeting. Persons to whom notice is required to be given may attend the Building Board meeting and be heard.

If upon evidence produce at such meeting, the Building Board is of the opinion that the proposed work will not increase erosion or slippage of soil or the danger thereof and will not unreasonably and unnecessarily damage or destroy the beauty of the natural vegetation, it shall direct that the requested permit be issued. Otherwise, it shall deny such permit or may modify the proposed work and authorize the issuance of a permit if the owner agrees to such modifications.

(c) In the event of the absence or inability to act of the Village Forester, the Village Engineer shall perform the functions above given to the Village Forester.

(d) This section does not apply to the areas on which the structure is authorized to be built, the driveway, and an area extending outward from the foundation

of such structure by a distance to be approved by the Village Engineer as consistent with the objective of this ordinance on controlling erosion and preserving the natural vegetation on the slope of the bluff or ravine.

17.12 REFUSE. Any refuse, which includes but is not limited to grass cuttings, branches, logs, paper, appliances and rubbish deposited in any manner on the slope of the lake bluff or the slope of the bank of a ravine shall not be permitted and must be removed within forty-eighty (48) hours of deposit.

17.13 PENALTY. Any person violating any provision of Section 17.11 and 17.12 shall be subject to a forfeiture of not less than \$100.00 and not more than \$1,000.00. Each act of violation and every day upon which a violation occurs or exists constitutes a separate offense.

#### 17.14 APPEAL

(a) Wherever certification by the Village Engineer is required by the foregoing provision, any person aggrieved by the issuance of such a certificate or refusal to issue such a certificate may appeal to the Board of Appeals, and the provision of Wisconsin Statutes 62.23(7) as now written or as such provision may be modified from time to time shall apply to such appeal.

(b) In respect to any matter referred to the Building Board by the above provision, appeal from their decision may be taken as provided in 2.09 of the Fox Point Village Code as now written or as it may be amended from time to time.

17.15 APPLICABILITY OF OTHER CODE SECTIONS. The provisions of 2.09 of this Code as now in effect or as the same may be amended, modified, or recreated from time to time shall apply to the issuance of any Building Permit subject to this Chapter. Also, in respect to any construction subject to this Chapter of the zoning ordinance of the Village, Chapter 14 as it now exists, or as it may be amended, modified or recreated from time to time shall apply.

17.16 SEVERABILITY. Should any section, subsection, clause, or provision in this chapter be declared by a court to be invalid, such declaration shall not affect the validity of the chapter as a whole or in any part thereof.

(b) All of the provisions of 17.8 apply to the building of any building or structure, a portion of which will extend over the slope of a ravine.

17.10 RELEASE. Any lot owner whose professional engineer submits a certificate as to safety as provided in 17.6, 17.8, and 17.9 above shall, as a condition for obtaining a Building Permit, give to the Village a release from any liability for injury to persons or damage to property arising from the slippage of soil or building or structure on the lot where the slope and construction thereon was certified as being safe. Such release shall be in a form acceptable to the Village Attorney.

17.11 RESTRICTION ON CUTTING: Wherever in the Village the slope of the lake bluff or the slope of the bank of a ravine averages 12° or over, no one shall prune, cut, kill, or remove any natural vegetation, including trees, shrubs, bushes, plants, flowers, and grasses without first obtaining a permit as hereinafter provided.

(a) An application for the proposed pruning, cutting, killing, or removing shall be filed with the Village Clerk, which application shall give the name of the owner and address of the property on which the work is proposed, and the name of the person, company or corporation who will do the work. The Clerk shall refer the application to the Village Forester. The Village Forester shall examine said application and shall view the location of the proposed work. If, after such viewing, it is the opinion of the Village Forester that the proposed work is minor in nature and primarily for the improvement and care of the plant life involved, he shall issue the permit.

(b) If after the delivery of an application to the Village Forester and a view of the premises as above provided, and the Village Forester is of the opinion that (a) above does not apply, he shall refer the matter to the Building Board. The Building Board shall consider the application at a duly called meeting; notice of said meeting shall be given to the applicant and to the owners of abutting lots. Such notice shall be in writing, mailed not less than 6 days or delivered to a person on the premises not less than 5 days before the day of the meeting. Persons to whom notice is required to be given may attend the Building Board meeting and be heard.

If upon evidence produce at such meeting, the Building Board is of the opinion that the proposed work will not increase erosion or slippage of soil or the danger thereof and will not unreasonably and unnecessarily damage or destroy the beauty of the natural vegetation, it shall direct that the requested permit be issued. Otherwise, it shall deny such permit or may modify the proposed work and authorize the issuance of a permit if the owner agrees to such modifications.

(c) In the event of the absence or inability to act of the Village Forester, the Village Engineer shall perform the functions above given to the Village Forester.

(d) This section does not apply to the areas on which the structure is authorized to be built, the driveway, and an area extending outward from the foundation

of such structure by a distance to be approved by the Village Engineer as consistent with the objective of this ordinance on controlling erosion and preserving the natural vegetation on the slope of the bluff or ravine. , ,

area.

17.12 REFUSE. Any refuse, which includes but is not limited to grass cuttings, branches, logs, paper, appliances and rubbish deposited in any manner on the slope of the lake bluff or the slope of the bank of a ravine shall not be permitted and must be removed within forty-eighty (48) hours of deposit.

17.13 PENALTY. Any person violating any provision of Section 17.11 and 17.12 shall be subject to a forfeiture of not less than \$100.00 and not more than \$1,000.00. Each act of violation and every day upon which a violation occurs or exists constitutes a separate offense.

#### 17.14 APPEAL

(a) Wherever certification by the Village Engineer is required by the foregoing provision, any person aggrieved by the issuance of such a certificate or refusal to issue such a certificate may appeal to the Board of Appeals, and the provision of Wisconsin Statutes 62.23(7) as now written or as such provision may be modified from time to time shall apply to such appeal.

(b) In respect to any matter referred to the Building Board by the above provision, appeal from their decision may be taken as provided in 2.09 of the Fox Point Village Code as now written or as it may be amended from time to time.

17.15 APPLICABILITY OF OTHER CODE SECTIONS. The provisions of 2.09 of this Code as now in effect or as the same may be amended, modified, or recreated from time to time shall apply to the issuance of any Building Permit subject to this Chapter. Also, in respect to any construction subject to this Chapter of the zoning ordinance of the Village, Chapter 14 as it now exists, or as it may be amended, modified or recreated from time to time shall apply.

17.16 SEVERABILITY. Should any section, subsection, clause, or provision in this chapter be declared by a court to be invalid, such declaration shall not affect the validity of the chapter as a whole or in any part thereof.
