REGULATION OF CONSTRUCTION ON OR OVER, AND CONTROL OF CUTTING ON, BANKS OR RAVINES AND LAKE BLUFF

(Restriction on Cutting, Section 285-11 Village Code)

Guidelines

Trees on the bluff are not only beautiful to all residents and increase the value of the property, but they help hold the bluff soil intact. It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowner's view. Topping of trees is a very poor running and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard.

Chapter 285. STORMWATER MANAGEMENT, EROSION CONTROL AND BLUFF REGULATION

Article I. Construction and Cutting on Banks of Ravines and Lake Bluff

§ 285-11. Restriction on cutting.

Wherever in the Village the slope of the lake bluff or the slope of the bank of a ravine averages 12° or over, no one shall prune, cut, kill, or remove any natural vegetation, including trees, shrubs, bushes, plants, flowers, and grasses, without first obtaining a permit as hereinafter provided.

- A. An application for the proposed pruning, cutting, killing, or removing shall be filed with the Village Clerk/Treasurer, which application shall give the name of the owner and address of the property on which the work is proposed, and the name of the person, company or corporation who will do the work. The Clerk/Treasurer shall refer the application to the Village Forester. The Village Forester shall examine said application and shall view the location of the proposed work. If, after such viewing, it is the opinion of the Village Forester that the proposed work is minor in nature and primarily for the improvement and care of the plant life involved, he shall issue the permit.
- B. If after the delivery of an application to the Village Forester and a view of the premises, as above provided, the Village Forester is of the opinion that Subsection A above does not apply, he shall refer the matter to the Building Board. The Building Board shall consider the application at a duly called meeting; notice of said meeting shall be given to the applicant and to the owners of abutting lots. Such notice shall be in writing, mailed not less than six days or delivered to a person on the premises not less than five days before the day of the meeting. Persons to whom notice is required to be given may attend the Building Board meeting and be heard. If upon evidence produce at such meeting, the Building Board is of the opinion that the proposed work will not increase erosion or slippage of soil or the danger thereof and will not unreasonably and unnecessarily damage or destroy the beauty of the natural vegetation, it shall direct that the requested permit be issued. Otherwise, it shall deny such permit or may modify the proposed work and authorize the issuance of a permit if the owner agrees to such modifications.
- C. In the event of the absence or inability to act of the Village Forester, the Director of Public Works/Village Engineer shall perform the functions above given to the Village Forester.
- D. This section does not apply to the areas on which the structure is authorized to be built, the driveway, and an area extending outward from the foundation of such structure by a distance to be approved by the Director of Public Works/Village Engineer as consistent with the objective of this article of controlling erosion and preserving the natural vegetation on the slope of the bluff or ravine.

INSPECTION DEPARTMENT VILLAGE OF FOX POINT 7200 N. SANTA MONICA BOULEVARD FOX POINT, WI 53217

NON COMPLIANCE NOTICE

May 3, 2012

Issued to: Gary & Julie Shovers

1070 E. Thorn Lane Address:

An inspection of the premises located at 1070 E. Thorn Lane discloses noncompliance with Codes or Ordinances of the Village of Fox Point as hereinafter listed:

Please provide a code compliant carbon monoxide detector on each floor level including the basement as required by code.

Please properly bond the corrugated stainless steel tubing (CSST) gas piping system as required per code.

Please properly replace the missing HVAC Diffuser in the garage.

A. Please provide access to the Ground-Fault Circuit Interrupter (GFCI) that are protecting your whirlpool bathtub(s) so that I may check them for code compliance.

(5.) Please submit documentation, from a Qualified Plumber, showing that your rain water downspouts are not discharging clear water into the Village's Sanitary Sewer System.

Scott Miller **Building Inspector** Village of Fox Point

^{*} Please be aware that Village Code requires permits for plumbing and electrical work.

^{*}Please be aware that all work done prior to obtaining a permit will require a double fee pursuant to Village Code.

Bradley Security Systems, Inc.

P.O. Box 0075 • Butler, WI 53007 262-786-8800

May 22, 2012

Job Site: 1070 E. Thom Dr.

Fox Point, WI 53189

Attention: Inspector

Carbon monoxide detectors are installed in each furnace room and 1 per floor. They have been tested and are funtioning properly. Smoke detectors and CO Detectors are hardwired back to the main GE control panel. A minimum of 12 hours of backup battey power is supplied. After which the keypad will notify client of trouble. All smoke detectors are supervised and wired in series to annunicate at the same time along with a siren. All CO Detectors are supervised will sound individually and sound the sirens.

The GE system in completely stand alone. With or without monitoring. The smoke and CO detectors are powered and supervised 24 hours.

Thank You

Scott Serfozo Installation Mgr.

10855 W. POTTER RD., SURTE 25 WAUWATOSA, WI 53226 (414) 258-9703 + RAX (414) 258-9712

Date: May 22, 2012

To: Gary Shovers

This letter is to state that Dickenschrauf Plumbing has verified that the downspouts for the house and garage at 1070 E Thorne Lane are all routed to two locations in the north-east and south-east corners of the property and drain to grade.

Sincerely, Ryan Schraufnagel Vice President Dickenschrauf Plumbing Solutions

CERTIFICATE OF COMPLIANCE

May 30, 2012

NO.

6206

Issued to:

Gary & Julie Shovers

Address:

1070 E. Thorn Lane

This Certificate of Compliance permits a change in the occupancy of the premises at 1070 E. Thorn Lane, Fox Point, WI, any time within one year from the date hereof, and indicates that so far as can reasonably be determined by a visual inspection of the premises and a review of the Village records, the premises meet the requirements of Section 30P.62 of the Fox Point Building Code. This certificate is issued for the benefit of the Village of Fox Point in the enforcement of Section 30P.62 of the Fox Point Building Code. Neither the Village of Fox Point nor the Building Inspector assumes any liability in or as a result of the inspection or issuance of the Certificate of Compliance and by the issuance of this Certificate of Compliance does not guarantee or warrant as to the condition of the premises inspected.

Scott Miller

REGULATION OF CONSTRUCTION ON OR OVER, AND CONTROL OF CUTTING ON, BANKS OR RAVINES AND LAKE BLUFF

(Restriction on Cuttings, Chapter 17.11 Village Code)

Guidelines

Property Owner

Trees on the bluff are not only beautiful to all residents and increase the value of the property, but they help hold the bluff soil intact. It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowner's view. Topping of trees is a very poor running and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard.

## CERTIFICATE OF COMPLIANCE

No. 1295 Date August 18, 1982
Issued to A. R. Taurel
Address 1070 Thorne Lane
This Certificate of Compliance permits a change in the occupancy of the premises
located at 1070 E. Thorn Lane
in Fox Point, Wisconsin, any time within one year from the date hereof, and
indicates that so far as can reasonably be determined by a visual inspection of
the premises and a review of the Village records, the premises meet the requirements
of Section 30P.62 of the Fox Point Building Code. This certificate is issued for the
benefit of the Village of Fox Point in the enforcement of Section 30P.62 of the Fox
Point Building Code. Neither the Village of Fox Point nor the Building Inspector
assumes any liability in or as a result of the inspection or issuance of this
Certificate of Compliance and by the issuance of this Certificate of Compliance does
not guarantee or warrant as to the condition of the premises inspected.

Guidelines and Village Permit (Control of Cutting on Slope, Chapter 17.11 Village Code)

Trees on the bluff are not only beautiful to all residents and increase the value of the property, but they help hold the bluff soil intact. It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowner's view. Topping of trees is a very poor pruning and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard. GARY ShorERS 1070 E. ThORN LN

Guidelines and Village Permit (Control of Cutting on Slope, Chapter 17.11 Village Code)

Trees on the bluff are not only beautiful to all residents and increase the value of the property, but they help hold the bluff soil intact. It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowner's view. Topping of trees is a very poor pruning and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard.

Guidelines and Village Permit (Control of Cutting on Slope, Chapter 17.11 Village Code)

Trees on the bluff are not only beautiful to all residents and increase the value of the property, but they help hold the bluff soil intact. It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowner's view. Topping of trees is a very poor pruning and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard.

#### NOTICE TO PLUMBING CONTRACTORS

In order to provide quality and timely service for your construction projects, the Fox Point Water Utility needs advanced notice prior to any water shutoffs to residential or commercial properties in the Village of Fox Point. Your call or written message to us for a shutoff will be returned within 24 hours. We will then schedule a time to complete the shutoff. Any emergencies will be responded to as soon as possible. The charge for this service during normal working hours is \$25. After normal hours the charge is \$30.00.

Thank you for your cooperation.

Paul Haugen Water Utility Foreman #351-8900 Normal Working Hours (M-F 7:30 AM-4:00 PM)

#### CERTIFICATE OF COMPLIANCE

January 14, 2002

NO.

4787

Issued to:

Louis Chapman

Address:

1070 E. Thorn Lane

This Certificate of Compliance permits a change in the occupancy of the premises at 1070 East
Thorn Lane, Fox Point, Wisconsin, any time within one year from the date hereof, and
indicates that so far as can reasonably be determined by a visual inspection of the premises and a
review of the Village records, the premises meet the requirements of Section 30P.62 of the Fox Point
Building Code. This certificate is issued for the benefit of the Village of Fox Point in the
enforcement of Section 30P.62 of the Fox Point Building Code. Neither the Village of Fox Point
nor the Building Inspector assumes any liability in or as a result of the inspection or issuance of the
Certificate of Compliance and by the issuance of this Certificate of Compliance does not guarantee
or warrant as to the condition of the premises inspected.

Scott Miller

In making the application the undersigned agrees to obey the Fox Point Building and Zoning Codes pertaining to the erection of all structures and also agrees to obey all other ordinances of the Village of Fox Point. The undersigned, owner or being duly authorized so to do, hereby gives express authorization to the Village of Fox Point, its officers, agents and employees, to enter upon the premises herein described and fill up any excavation, or tear down, remove or enclose the unfinished structure for which a permit is herein requested in the event of cessation of the building, whenever the Building Inspector shall determine that such premises in the unfinished condition of the structure are dangerous to members of the public, including children, even though trespassers. The undersigned further hereby waives all statutory notices and consents to the determination by the Village Board and the levy and placing upon the tax roll of a special assessment in the amount of the cost to the Village, including customary Village overhead charges incurred in filling up any such excavation or tearing down, removing or enclosing any such unfinished structure. We hereby agree to provide a house number plate or sign readily observable from the public highway which will be installed not less than 15 days after the structure is occupied. ## GUIDELINES AND VILLAGE PERMIT (CONTROL OF CUTTING ON SLOPE, CHAPTER 17.8 VILLAGE CODE)

Trees on the bluff are not only beautiful to all residents and increase the value of the property, but they help hold the bluff soil intact. It is permissible to remove trees on your lot for the purpose of improving the view, without causing erosion. This is done by thinning (selectively removing) the trees and not by clear-cutting. This thinning process should remove no more than 20% of the existing trees and in a widely-spaced pattern, leaving the remaining trees more room to develop strongly. Selectively pruning branches on existing trees can improve the health of these trees while also improving the homeowners' view. Topping of trees is a very poor pruning and cultural practice and results in increased tree problems several years later. No heavy equipment or vehicles should be used on the bluff; cutting can be done with chain saws or other light tools. The use of this wood for firewood is acceptable if it is collected by hand. It is important to get all remaining parts of the tree down to within three feet of the ground. This greatly speeds decomposition and reduces fire hazard.

TERMS OF PERMIT: Property Owner:	Name MR. Paul Riely Address 1070 Thorn Lane Telephone 352-1281
Contractor:	Name and Firm  Address  Telephone  HED OAK TREE SERVICE Mack Cavalnaz  3240 N. Dousman  Milwaukee, WI 53212  (414) 263-0932

Architect, Owner, Builder.

- (b) All of the provisions of 17.8 apply to the building of any building or structure, a portion of which will extend over the slope of a ravine.
- 17.10 RELEASE. Any lot owner whose professional engineer submits a certificate as to safety as provided in 17.6, 17.8, and 17.9 above shall, as a condition for obtaining a Building Permit, give to the Village a release from any liability for injury to persons or damage to property arising from the slippage of soil or building or structure on the lot where the slope and construction thereon was certified as being safe. Such release shall be in a form acceptable to the Village Attorney.
- ITALERESTRICTION ON CUITING! Wherever in the Village the slope of the lake bluff or the slope of the bank of a ravine averages 12° or over, no one shall prune, cut, kill, or remove any natural vegetation, including trees, shrubs, bushes, plants, flowers, and grasses without first obtaining a permit as hereinafter provided.
- (a) An application for the proposed pruning, cutting, killing, or removing shall be filed with the Village Clerk, which application shall give the name of the owner and address of the property on which the work is proposed, and the name of the person, company or corporation who will do the work. The Clerk shall refer the application to the Village Forester. The Village Forester shall examine said application and shall view the location of the proposed work. If, after such viewing, it is the opinion of the Village Forester that the proposed work is minor in nature and primarily for the improvement and care of the plant life involved, he shall issue the permit.
- (b) If after the delivery of an application to the Village Forester and a view of the premises as above provided, and the Village Forester is of the opinion that (a) above does not apply, he shall refer the matter to the Building Board. The Building Board shall consider the application at a duly called meeting; notice of said meeting shall be given to the applicant and to the owners of abutting lots. Such notice shall be in writing, mailed not less than 6 days or delivered to a person on the premises not less than 5 days before the day of the meeting. Persons to whom notice is required to be given may attend the Building Board meeting and be heard.

If upon evidence produce at such meeting, the Building Board is of the opinion that the proposed work will not increase erosion or slippage of soil or the danger thereof and will not unreasonably and unnecessarily damage or destroy the beauty of the natural vegetation, it shall direct that the requested permit be issued. Otherwise, it shall deny such permit or may modify the proposed work and authorize the issuance of a permit if the owner agrees to such modifications.

- (c) In the event of the absence or inability to act of the Village Forester, the Village Engineer shall perform the functions above given to the Village Forester.
- (d) This section does not apply to the areas on which the structure is authorized to be built, the driveway, and an area extending outward from the foundation

of such structure by a distance to be approved by the Village Engineer as consistent with the objective of this ordinance on controlling erosion and preserving the natural vegetation on the slope of the bluff or ravine.

- 17.12 REFUSE. Any refuse, which includes but is not limited to grass cuttings, branches, logs, paper, appliances and rubbish deposited in any manner on the slope of the lake bluff or the slope of the bank of a ravine shall not be permitted and must be removed within forty-eighty (48) hours of deposit.
- 17.13 PENALTY. Any person violating any provision of Section 17.11 and 17.12 shall be subject to a forfeiture of not less than \$100.00 and not more than \$1,000.00. Each act of violation and every day upon which a violation occurs or exists constitutes a separate offense.

#### **17.14 APPEAL**

- (a) Wherever certification by the Village Engineer is required by the foregoing provision, any person aggrieved by the issuance of such a certificate or refusal to issue such a certificate may appeal to the Board of Appeals, and the provision of Wisconsin Statutes 62.23(7) as now written or as such provision may be modified from time to time shall apply to such appeal.
- (b) In respect to any matter referred to the Building Board by the above provision, appeal from their decision may be taken as provided in 2.09 of the Fox Point Village Code as now written or as it may be amended from time to time.
- 17.15 APPLICABILITY OF OTHER CODE SECTIONS. The provisions of 2.09 of this Code as now in effect or as the same may be amended, modified, or recreated from time to time shall apply to the issuance of any Building Permit subject to this Chapter. Also, in respect to any construction subject to this Chapter of the zoning ordinance of the Village, Chapter 14 as it now exists, or as it may be amended, modified or recreated from time to time shall apply.
- 17.16 SEVERABILITY. Should any section, subsection, clause, or provision in this chapter be declared by a court to be invalid, such declaration shall not affect the validity of the chapter as a whole or in any part thereof.
