APPLICATION AND RECORD FOR HEATING PERMIT

TO THE BUILDING INSPECTION DEPARTMENT:

The undersigned hereby applies for a permit to install, in accordance with the information tabulated hereafter,

Winter Air Conditioner Type Forced Air
Forced Air, Radiant, Baseboard, Etc.

Fuel: Gas Oil Coal Elect. Other

Desc. of Heating Plant Garage Heater

Vented to _____

Fuel Tank : _____
Size _____ Location _____

Summer Air Conditioner Size _____ (Ton, H.P.)

Coolant _____

Compressor Coolant: Air ; Water ;

If Water Cooled:
Source of Water _____

Discharged to _____

Location of unit on premises including distances to lot lines required for approval of exterior apparatus.
in garage

Incinerator Manufacturer's Name _____

Model No. _____ Capacity _____ Bushels _____

Has installation permit been issued by Milwaukee Co. Dept. of Air Pollution Control? _____

Remarks _____

The undersigned acknowledges that he is familiar with Ordinance No. 261, and all amendments thereto and that the work described herewith shall conform in all respects to said ordinances and all other ordinances of the Village of Fox Point, and laws of the State of Wisconsin. Any variations of the above may cause immediate revocation of the permit, if granted.

Re: Building Permit #14367

Dear Mr. & Mrs. Martin:

I made a final inspection of your new second story addition on March 7, 2011. The inspection revealed the following code violations/concerns:

- 1) In checking Village records, I fail to find any record of a HVAC permit ever having been issued for the furnace that has been installed in your garage. This is a violation of section 30.05(d) of the Village code.
- 2) The garage furnace is an open flame gas-fired appliance that is suspended above the garage floor. This furnace must be "located at least seven (7) feet above the floor and at least six (6) inches from any combustible wall or ceiling" as required by section 30.43(8) of the Village code.
- 3) The single-wall chimney connector that is venting the garage furnace shall be installed in compliance with table #23-15-B of the Uniform Dwelling Code which requires a clearance of at least 18 inches to a combustible material for a gas appliance without a draft hood and 6 inches of clearance to a combustible material for a gas appliance with a draft hood.
- 4) The corrugated stainless-steel tubing (CSST) gas piping system that supplies the garage furnace was not bonded as required by code. (ref NFGC 3.14)
- 5) I observed that the furnace's chimney vent cap is located below the second story addition which is cantilevered over the west wall of the garage. Also, I observed that the vent connector is sloping downward towards the chimney vent cap. Please provide me with documentation showing that this installation is in compliance with the manufacturer's installation instructions. (ref. NFGC 5.1.21)
- 6) The nonmetallic sheathed cable that has been installed in the garage shall be properly protected by a permanent building finish material (drywall, plywood, etc.) as required by Village code. (ref. FPC 13.17)

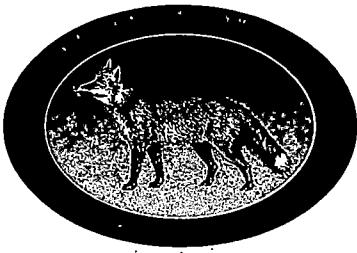

For the foregoing reasons, I am hereby requesting that you contact me to schedule a reinspection after you have brought the above items into code compliance.

Please feel free to contact me should you have any questions concerning this letter.

Sincerely,

Scott Miller

APPLICATION FOR BUILDING PERMIT

The undersigned hereby applies for a permit to build, in accordance with the information tabulated hereafter,

Type of Structure Residence Address 100 W Bradley Rd Fox Point
Residence, Garage, Store, Office, School, Fence, Shed, Sign, Swimming Pool, Etc.

Lot _____ Block _____ Subdivision _____ District _____

Does contemplated structure violate the Village zoning ordinance? _____

Height of Structure _____ (stories or feet)

Width (parallel to highway) _____ (feet) Depth (perpendicular to highway) _____ (feet)

Distance: Street Line to Front Line of Structure _____ (feet)

Distance: Side Lot Line to Structure _____

Type of Construction: _____ Exterior finish _____
Frame, Brick-tile, Etc. Stucco, Siding, Brick Veneer, Etc.

Height of front yard above street grade _____

Number of rooms 1 Bedroom 1 Screen porch Baths 1 Bath

Garage _____

Estimated cost Building _____
Structure _____

Is there a private garage? _____

Does the contemplated garage violate the Village zoning ordinance? _____

Size _____ Number of Stalls _____ Where Situated _____

Have plans been submitted to the Wisconsin Department of Industry, Labor and Human Relations for examination and approval? _____

Have plans been approved as being in compliance with all applicable sections of the Wisconsin Administrative code? _____

Herewith are filed the following duplicate plans _____ in number, which I certify I will conform to in the work hereby applied for:

Remarks: Bed + Bath above Garage - 49,000.00 2nd floor
- Screen porch over existing deck 15,000.00 1st floor N/A

Total 64,000

Herewith are filed the specifications that describe the work in question and as shown on plans above submitted.

In making the application the undersigned agrees to obey the Fox Point Building and Zoning Codes pertaining to the erection of all structures and also agrees to obey all other ordinances of the Village of Fox Point.

The undersigned, owner or being duly authorized so to do, hereby gives express authorization to the Village of Fox Point, its officers, agents and employees, to enter upon the premises herein described and fill up any excavation, or tear down, remove or enclose the unfinished structure for which a permit is herein requested in the event of cessation of the building, whenever the Building Inspector shall determine that such premises in the unfinished condition of the structure are dangerous to members of the public, including children, even though trespassers. The undersigned further hereby waives all statutory notices and consents to the determination by the Village Board and the levy and placing upon the tax roll of a special assessment in the amount of the cost to the Village, including customary Village overhead charges incurred in filling up any such excavation or tearing down, removing or enclosing any such unfinished structure.

We hereby agree to provide a house number plate or sign readily observable from the public highway which will be installed not less than 15 days after the structure in occupied.

Owner of Structure Ted + Claudia Martin Arch. or Contr. J Rogers Construction

Address 100 W Bradley Rd Address 621 Michigan Ave

Handling & Erection	Miscellaneous Information	LP LVL, LP LSL and CTR, LP I-Joist Specifications	Software Provided By: 07/27/10 WISC
Temporary and permanent bracing for holding component plumb and for resisting lateral forces shall be designed and installed by others. No loads are to be applied to the component until after all the framing and fastening are completed. At no time shall loads greater than design loads be applied to the component.	The use of this component shall be specified by the designer of the complete structure. Obtain all the necessary code compliance approval and instructions from the designers of the complete structure before using this component. If the design criteria listed above does not meet local building code requirements, do not use this design. When this drawing is signed and sealed, the structural design is approved as shown in this drawing based on data provided by the customer. LP LVL, LP LSL and CTR, LP I-joists are made without camber and will deflect under load. Wood in direct contact with concrete must be protected as required by code. Continuous lateral support is assumed (wall, floor beam, etc.). LP does not provide on-site inspection. This drawing must have an Architect's or Engineer's seal affixed to be considered an Engineering document.	<ul style="list-style-type: none"> * Supports and connections for LP LVL, LP LSL, CTR and LPI to be specific applications. * Common nails driven parallel to glue lines shall be spaced a minimum of 4" for 10d and 3" for 8d. * Do not cut, notch, drill or alter LP LVL, LP LSL and CTR, LP I-joists except as shown in published material from LP any use of LP LVL, LSL and CTR, LP I-joists contrary to the limits set forth hereon, negates any express warranty of the product and LP disclaims all implied warranties including the implied warranties of merchantability and fitness for a particular use. New Homes Additions Remodel Decks Garages Window Replacements

FAX

To: Scott Miller for Board Meeting on Fri

From: J Rogers Construction

Regarding: Survey Map of 100 West Bradley Rd

The Bed and bath we are looking to build would be cantilevered 1ft 6 inches on the West, East, and North side of the Garage. We are Looking to do this just to make it a little bigger.

2010.3 Allowable Stress Design

- NOTE:**
- THIS COMPONENT IS DESIGNED TO SUPPORT ONLY THE VERTICAL LOADS SHOWN. VERIFICATION OF LOADING, DEFLECTION LIMITATIONS, FRAMING METHODS, WIND AND SEISMIC BRACING, AND OTHER LATERAL BRACING THAT IS ALWAYS REQUIRED IS THE RESPONSIBILITY OF THE PROJECT ENGINEER OR ARCHITECT.
 - PROVIDE RESTRAINT AT SUPPORTS TO ENSURE LATERAL STABILITY.
 - DO NOT CUT, NOTCH OR DRILL LPI FLANGES.
 - SHIM ALL BEARINGS FOR FULL CONTACT.
 - VERIFY DIMENSIONS BEFORE CUTTING LPI TO SIZE.
 - THIS LPI IS TO BE USED AS A FLOOR JOIST ONLY.
 - COMPRESSION EDGE BRACING REQUIRED AT 72" O.C. OR LESS.

LOAD TABLE

NOTE: LOADS SHOWN ARE FOR INPUT LOAD CASE (1). OTHER LOAD CASES FOR PATTERN LIVE LOADING ARE CHECKED AS REQUIRED. (DIMENSIONS MEASURED FROM LEFT END OF SPAN OR CANTILEVER.)

Handling & Erection	Miscellaneous Information	LP LVL, LP LSL and CTR, LP I-Joist Specifications	Software Provided By: LP Engineered Wood Products 08/17/10 WISC
Temporary and permanent bracing for holding component plumb and for resisting lateral forces shall be designed and installed by others. No loads are to be applied to the component until after all the framing and fastening are completed. At no time shall loads greater than design loads be applied to the component.	The use of this component shall be specified by the designer of the complete structure. Obtain all the necessary code compliance approval and instructions from the designers of the complete structure before using this component. If the design criteria listed above does not meet local building code requirements, do not use this design. When this drawing is signed and sealed, the structural design is approved as shown in this drawing based on data provided by the customer. LP LVL, LP LSL and CTR, LP I-joists are made without camber and will deflect under load. Wood in direct contact with concrete must be protected as required by code. Continuous lateral support is assumed (wall, floor beam, etc.). LP does not provide on-site inspection. This drawing must have an Architect's or Engineer's seal affixed to be considered an Engineering document.	<ul style="list-style-type: none"> * Supports and connections for LP LVL, LP LSL, CTR and LPI to be specific applications. Common nails driven parallel to glue lines shall be spaced a minimum of 4" for 10d and 3" for 8d. * Do not cut, notch, drill or alter LP LVL, LP LSL and CTR, LP I-joists except as shown in published material from LP any use of LP LVL, LSL and CTR, LP I-joists contrary to the limits set forth hereon, negates any express warranty of the product and LP disclaims all implied warranties including the implied warranties of merchantability and fitness for a particular use. 	414 Union Street, Suite 2000 Nashville, TN 37219 Phone 800.515.7570 Fax 866.753.4369

VILLAGE OF FOX POINT
BUILDING BOARD MINUTES
AUGUST 6, 2010

Ted & Claudia Martin, 100 W. Bradley Road, proposed master bedroom suite above existing garage and new screen porch over existing deck. Contractor: J. Rogers Construction. It was the consensus of the Building Board to approve this application subject to the following conditions:

1. The applicant providing the Village with documentation showing that the framing members are properly sized.
2. The applicant providing the Village with documentation showing that this project complies with the Village's Ceiling Height Requirements.
3. The applicant providing the Village with documentation showing that the exterior finishes will match the existing home.
4. The applicant providing the Village with a revised plus shows that "Divided Light" windows will be used on the project.
5. The applicant providing the Village with documentation showing that the interior doors will be installed in compliance with Village code (minimum 6'6" tall).

Sal's Tailor, (Fox Point Shops) 6904 N. Santa Monica Blvd., proposed sign.

It was the consensus of the Building Board to approve this application subject to the following conditions:

1. This approval is subject to the sign being installed in compliance with the Uniform Sign Format.

Amit & Samta Bhatnadar, 7600 N. Beach Drive, proposed conceptual plan of a new single family residence. Contractor: Midwest Custom Home. It was the consensus of the Building Board to table this application subject to the following conditions:

1. It was the feeling of the Building Board to table this application at this time to allow the applicant an opportunity to revise their plans to address the design concerns the Board expressed at this meeting.

Stephen & Julie Spadafora, 7731 N. Club Circle, proposed new detached garage.

The applicants are requesting the Building Board to approve a 4% reduction in open area as per Section 14.255 of the Village Code. Contractor: Auchter Construction. It was the consensus of the Building Board to approve this application, including a 4% reduction in open area subject to the following conditions:

1. The applicant providing the Village with documentation showing that the garage will comply with the Village's 25'00" Building Height Requirement.
2. The applicant providing the Village with documentation showing that the framing members are properly sized.
3. The applicant providing the Village with documentation showing that the project will comply with the Energy Code.
4. The applicant providing the Village with a revised building section showing that this project will be built in accordance with Village code.

BUILDING INSPECTION DEPT. FOX POINT, WI

Date 8.17.10

This Certifies that Building Permit No. 14367 has
been issued to J Rogers Construction for Bedroom + Bathroom
at 100 W. Bradley Road Construction above the
Existing Attached Garage
Fox Point, Wisconsin.

This permit is subject to the project being constructed in accordance with
Village code including but not limited to the following items listed below:

NOTE :

**This Permit Does Not Include the Screen
Borch Over Existing Deck.**

Building Inspector

**This Permit card must be posted until final inspection has been made pursuant
to Section 30.06(1) of the Village Code.**

VILLAGE OF FOX POINT
MILWAUKEE COUNTY, WISCONSIN

No. 68450

APPLICATION FOR BUILDING PERMIT

TO THE BUILDING INSPECTION DEPARTMENT:

The undersigned hereby applies for a permit to build, in accordance with the information tabulated hereafter,

Type of Structure 6 FT. STOCKADE FENCE - 4 DECK
Residence, Garage, Store, Office, School, Fence, Shed, Sign, Swimming Pool, Etc.

House Number 100 W BRADLEY Rd.

Lot 11 & EAST 13.5 FT. W/LOT 12 Block 10

Subdivision # 24

District _____

Does contemplated structure violate the Village zoning ordinance? NO

Height of Structure 6 FT. (stories or feet)

Width (parallel to highway) _____ (feet) Depth (perpendicular to highway) _____ (feet)

Distance: Street Line to Front Line of Structure _____ (feet)

Distance: Side Lot Line to Structure _____

Type of Construction: WOOD Exterior finish _____
Frame, Brick-tile, Etc. Stucco, Siding, Brick Veneer, Etc.

Height of front yard above street grade _____

Number of rooms _____ Baths _____

Garage _____

Estimated cost Building _____

Structure ~~148200~~ 148200

Is there a private garage? _____

Does the contemplated garage violate the Village zoning ordinance? _____

Size _____ Number of stalls _____

Where situated _____

General construction _____
Frame — Brick — Stucco — Etc.

Have you applied to the Industrial Commission for a permit under the State Building Code? _____

Has the permit been granted? _____

Herewith are filed the following duplicate plans 3 in number, which I certify I will conform to in the work hereby applied for.

Remarks: Fence approved subject to (1) Fence cannot exceed 6 feet in height sections installed without permit to be lowered to 6 feet (2) Owner review boundary lines and fence placement to insure owner stays on property and (3) Owner must provide permanent access to sanitary sewer manhole on property this shall be accomplished by providing a removable section of not less than 8 feet adjacent to the manhole on north property line

Herewith are filed the specifications that describe the work in question and as shown on plans above submitted.

In making the application the undersigned agrees to obey the Fox Point Building and Zoning Codes pertaining to the erection of all structures and also agrees to obey all other ordinances of the Village of Fox Point.

The undersigned, owner or being duly authorized so to do, hereby gives express authorization to the Village of Fox Point, its officers, agents and employees, to enter upon the premises herein described and fill up any excavation, or tear down, remove or enclose the unfinished structure for which a permit is herein requested in the event of cessation of the building, whenever the Building Inspector shall determine that such premises in the unfinished condition of the structure are dangerous to members of the public, including children, even though trespassers. The undersigned further hereby waives all statutory notices and consents to the determination by the Village Board and the levy and placing upon the tax roll of a special assessment in the amount of the cost to the Village, including customary Village overhead charges incurred in filling up any such excavation or tearing down, removing or enclosing any such unfinished structure.

We hereby agree to provide a house number plate or sign readily observable from the public highway which will be installed not less than 15 days after the structure is occupied.

Architect (Owner) Builder

Gates. You can make your own square-top gate by cutting a fence section to the desired width and adding diagonal bracing. If you prefer a convex top, you can order a factory-assembled gate.

Support Posts. Full round support posts of northern white cedar come in your choice of nub or pencil point.

This classical stockade fence is HABITANT'S most popular style; its grace and natural beauty have a versatility that enhances every lawn and garden setting.

The pickets are smooth-milled from natural Michigan white woods. The outer face of the pickets is convex, and the picket tops are milled to a blunt, Gothic point. The result is a pleasing blend of rustic and formal. The backs of the pickets are flat for a flush fit with the 2 x 3-in. horizontal support rails. Closely controlled uniformity of pickets plus precision jig assembly at the factory account for the privacy and security characteristics of the MACKINAW.

Choose the MACKINAW height you desire: 4, 5, 6, 7 or 8 feet. All heights come in sections 8 feet long, which makes for easy, fast installation by either installer or do-it-yourselfer.

APPLICATION FOR BUILDING PERMIT

TO THE BUILDING INSPECTION DEPARTMENT:

The undersigned hereby applies for a permit to build, in accordance with the information tabulated hereafter,

Type of Structure Home Sauna in Basement (in Cistern)

(2.) APPLICATION FOR PERMITS -- Application for a building permit shall be made in writing upon a blank form to be furnished by the Building Inspector and shall state the name and address of the owner of the building and the owner of the land on which it is to be erected, the name and address of the designer and shall set forth a legal description of the land on which the building is to be located, the location of the building, the house number thereof and such other information as the Building Inspector may require. With such application, there shall be submitted, to the Building Inspector, three (3) complete sets of plans, specifications and three (3) copies of a survey.

(a.) Survey -- The survey shall be prepared and certified by a surveyor or registered by the State of Wisconsin; shall be made, in no case, prior to one (1) year prior to the issuance of a building permit; and shall bear the date of the survey. The certified survey shall also show the following:

1. Location and dimensions of all buildings on the lot, both existing and proposed.
2. Dimensions of the lot.
3. Dimensions showing all setbacks to all buildings on the lot.
4. Proposed grade of proposed structure, to city or village datum.
5. Grade of lot and of road opposite lot.
6. Grade and setback of adjacent buildings. If adjacent lot is vacant, submit elevation of nearest buildings on same side of the road.
7. Type of monuments at each corner of lot.
8. Water courses or existing drainage ditches.
9. Seal and signature of surveyor.

(b.) Plans and Specifications -- All plans shall be drawn to a scale not less than one-fourth (1/4) inch per foot, on paper or cloth in ink, or by some other process that will not fade or obliterate, and shall disclose the existing and proposed provisions for water supply, sanitary sewer connections and surface water drainage. All dimensions shall be accurately figured. Drawings that do not show all necessary detail shall be rejected.

A complete set of plans for residential construction shall consist of:

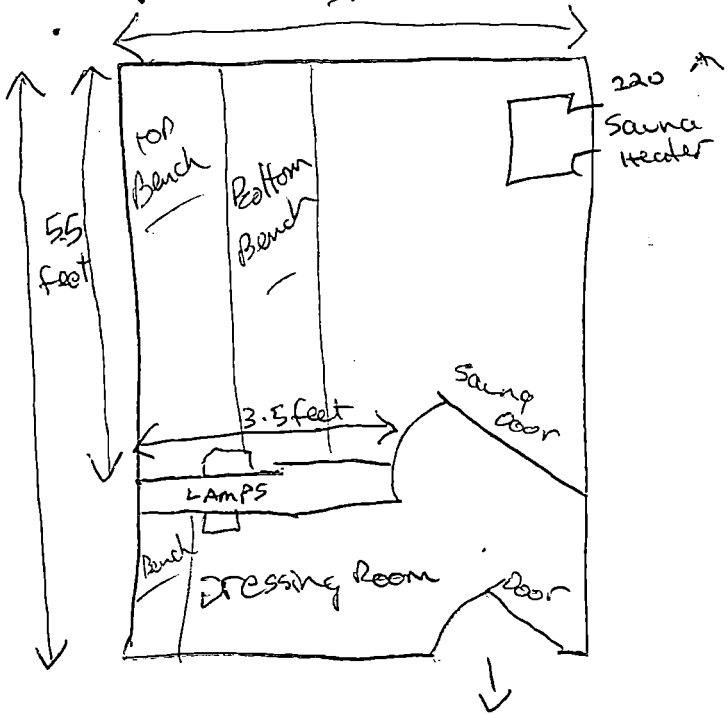

1. All elevations.
2. All floor plans.
3. Complete construction details.
4. Fireplace details (3/4 inch per foot) showing cross section of fireplace and flues.
5. Plans of garage when garage is to be built immediately or location of garage when it is to be built at a later date.

All plans shall remain on file in the office of the Building Inspector until at least one (1) year after the completion of the building, after which time the Building Inspector may return the same to the owner, may keep them for public record or may destroy them.

- (3.) WAIVER OF SOME REQUIREMENTS -- At the option of the Building Inspector, plans, data, specifications and survey need not be submitted with an application for permit to execute minor alterations and repairs to any building, structure or equipment, provided the proposed construction is sufficiently described in the application for permit.
- (4.) SEAL OF REGISTERED ENGINEER OR ARCHITECT -- All plans, data and specifications for the construction of any building or structure or for any construction in connection with existing buildings or structures, other than one and two family residences containing more than fifty thousand (50,000) cubic feet, total volume, submitted with an application for permit, shall bear the seal of the registered architect or engineer. The plans shall also be stamped as approved as required by the Department of Industry, Labor and Human Relations of the State of Wisconsin. Such building or structure shall be constructed under the supervision of an architect or engineer who shall be responsible for its erection in accordance with the approved plans. No permit shall be granted for such structure unless such construction will be under the supervision of an architect or engineer, as required by the Wisconsin Statutes. A written statement to this effect shall be filed by the architect or engineer, with the Building Inspector, with the application for permit.
- (5.) DRAINAGE
- (a.) Grading of lots -- The plans shall show the present and proposed grades of the lot on which it is proposed to erect the building for which a building permit is sought and of the immediately adjoining property in sufficient detail to indicate the surface water drainage before and after the completion of the grading. No permit shall be issued if the erection of the building and the proposed grades shall unreasonably obstruct the natural flow of water from the surface of adjoining property or obstruct the flow of any existing ravine, ditch, drain or storm water sewer draining neighboring property, unless suitable provision is made for such flow by means of an adequate ditch or pipe, which shall be shown on the plans and shall be constructed so as to provide continuous drainage at all times.

FOX POINT, WISCONSIN 53217

CERTIFICATE OF COMPLIANCE

July 13, 2005

NO. 5383

Issued to: Paul & Suzanne Lang

Address: 100 W. Bradley Road

This Certificate of Compliance permits a change in the occupancy of the premises at 100 West Bradley Road, Fox Point, WI, any time within one year from the date hereof, and indicates that so far as can reasonably be determined by a visual inspection of the premises and a review of the Village records, the premises meet the requirements of Section 30P.62 of the Fox Point Building Code. This certificate is issued for the benefit of the Village of Fox Point in the enforcement of Section 30P.62 of the Fox Point Building Code. Neither the Village of Fox Point nor the Building Inspector assumes any liability in or as a result of the inspection or issuance of the Certificate of Compliance and by the issuance of this Certificate of Compliance does not guarantee or warrant as to the condition of the premises inspected.

Scott Miller
Building Inspector

Structure

Is there a private garage?

Does the contemplated garage violate the Village zoning ordinance?

Size Number of stalls

Where situated

General construction
Frame - Brick - Stucco - Etc.

Have plans been submitted to the Wisconsin Department of Industry, Labor and Human Relations for examination and approval?

Have plans been approved as being in compliance with all applicable sections of the Wisconsin Administrative code?

Herewith are filed the following duplicate plans in number, which I certify I will conform to in the work hereby applied for.

Remarks:

Herewith are filed the specifications that describe the work in question and as shown on plans above submitted.

In making the application the undersigned agrees to obey the Fox Point Building and Zoning Codes pertaining to the erection of all structures and also agrees to obey all other ordinances of the Village of Fox Point.

The undersigned, owner or being duly authorized so to do, hereby gives express authorization to the Village of Fox Point, its officers, agents and employees, to enter upon the premises herein described and fill up any excavation, or tear down, remove or enclose the unfinished structure for which a permit is herein requested in the event of cessation of the building, whenever the Building Inspector shall determine that such premises in the unfinished condition of the structure are dangerous to members of the public, including children, even though trespassers. The undersigned further hereby waives all statutory notices and consents to the determination by the Village Board and the levy and placing upon the tax roll of a special assessment in the amount of the cost to the Village, including customary Village overhead charges incurred in filling up any such excavation or tearing down, removing or enclosing any such unfinished structure.

We hereby agree to provide a house number plate or sign readily observable from the public highway which will be installed not less than 15 days after the structure is occupied.

FOX POINT, WI 53217
NONCOMPLIANCE NOTICE
May 31, 1996

Issued to: Jeff & Maureen Squire
Address: 100 W. Bradley Road

An inspection of the premises located at 100 W. Bradley Road discloses noncompliance with Codes or Ordinances of the Village of Fox Point as hereinafter listed:

1. Provide backflow protection for all exterior hose bibs and laundry tub faucets.
2. The following electrical violations were observed in the basement. They are:
 - A. NEC 336-10 Non Metallic cable may not be attached to the bottom of the floor joist. The code requirement applies to both the unfinished areas of the basement and above the ceiling tile in the finished area of the basement.
 - B. NEC 300-15(b)Exp#1 A fitting must be installed on the end of the conduit to the furnace. Also, please note that the furnace must be on its own circuit. (Ref. NEC 422-7)
 - C. NEC 410-16(c) The recessed light fixtures above the suspended ceiling system must be mechanically fastened to the framing members of the ceiling system.
 - D. Fox Point Code 13.17 The code does not allow non metallic cable to be exposed below the floor joist.

Please note that an electrical permit is required by Fox Point Code in order to complete these repairs.

NONCOMPLIANCE NOTICE

January 4, 1990
Date

Issued to: David and Susan Zor

Address: 100 W. Bradley Rd.

An inspection of the premises located at 100 W. Bradley Rd.
discloses noncompliance with Codes or Ordinances of the Village of Fox Point as
hereinafter listed:

1. Smoke detectors are required for each floor level including the basement.
2. Receptacle in bathroom and kitchen shall comply with code
3. There were noted several large cracks in both the exterior veneer and block foundation. These areas will require maintenance in the future.

The premises at the above address shall be brought in compliance before there is a change in occupancy. Please notify this office when corrections have been made and a reinspection of the premises for compliance is desired.

The occupant or proposed new occupant of the premises feeling aggrieved by the action of the Building Inspector may appeal to the Board of Appeals following the usual procedure on appeal from an order of the Building Inspector within thirty (30) days of the above date.

No. ~~2776~~ 2736

Date January 8, 1990

Issued to David J. and Susan I Zor

Address 100 W. Bradley Rd. Fox Point, WI 53217

This Certificate of Compliance permits a change in the occupancy of the premises located at 100 W. Bradley Rd. in Fox Point, Wisconsin, any time within one year from the date hereof, and indicates that so far as can reasonably be determined by a visual inspection of the premises and a review of the Village records, the premises meet the requirements of Section 30P.62 of the Fox Point Building Code. This certificate is issued for the benefit of the Village of Fox Point in the enforcement of Section 30P.62 of the Fox Point Building Code. Neither the Village of Fox Point nor the Building Inspector assumes any liability in or as a result of the inspection or issuance of this Certificate of Compliance and by the issuance of this Certificate of Compliance does not guarantee or warrant as to the condition of the premises inspected.

"permanent structure" classification shall not be permitted closer than 3 feet to an abutting property line other than a street line.

(c) Fences, Walls, Architectural Screening Devices, Driveway Gates and Arbors. The following regulations are established to ensure that the Village of Fox Point retains the openness and semi-rural character of its landscape.

1. Permit Required. No person shall erect or construct any fence, wall, driveway gate, architectural screening device or arbor unless specifically exempted by the provisions of this ordinance, on any property within the Village of Fox Point without having first obtained a permit from the Building Inspector and having paid the fee prescribed by Ordinance. Retaining walls regulated by Section 17.4 of this Code are exempt from the requirements of this Section. A survey by a licensed surveyor shall be submitted with each application for a fence, wall, architectural screening device, driveway gate or arbor, ten (10) feet or less from the lot line of the property. The determination of the Building Inspector as to proximity shall be final. When required, the survey shall show the location of the proposed fence, wall, architecture screening device, driveway gate or arbor in relation to the property line, but need not depict any other aspect of the subject property. The Building Inspector shall deny a permit if the proposed fence, wall, architectural screening device, driveway gate or arbor is in the right-of-way or if its proposed location will impede visibility of vehicular traffic.
2. Replacement or Reconstruction. If an existing fence, wall architectural screening device, driveway gate or arbor is substantially or completely destroyed or becomes deteriorated to a material degree, it may be replaced or reconstructed in the same location, height and materials by first obtaining a permit provided that it must be replaced or reconstructed within 12 months of being removed. All other replacement or reconstruction of existing fences, walls, architectural screening devices, driveway gates or arbors must fully comply with the terms of this Section.
3. Temporary Fences. Temporary safety, snow or deer fences of any type may be allowed in the discretion of the Village Manager for the purpose of safety, protection from the elements or protection from deer, for a period not to exceed 120 days, unless extended by the Village Manager. Temporary construction fences may be allowed in the discretion of the Village Building Inspector for the time that a building permit is in effect on the property.
4. Lake, Bluffs, Ravines. Where property abuts Lake Michigan, or is located on a bluff or a ravine in such a locale that construction of a fence, wall, architectural screening device, driveway gate or arbor would materially obstruct the aesthetic views of adjoining and surrounding property owners, the Building Inspector may deny a permit based upon his determination that there is a substantial

NONCOMPLIANCE NOTICE

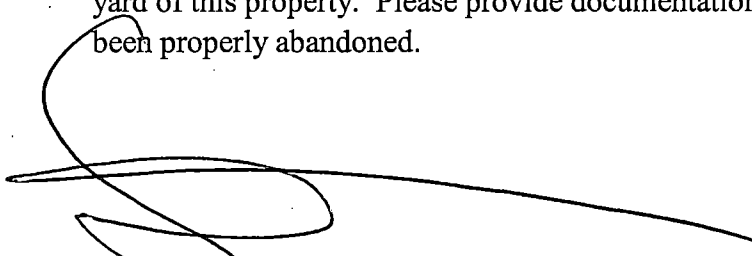

June 2, 2005

Issued to: Paul & Suzanne Lang

Address: 100 W. Bradley Road

An inspection of the premises located at 100 W. Bradley Road discloses noncompliance with Codes or Ordinances of the Village of Fox Point as hereinafter listed:

1. Please provide backflow protection for all exterior hose bibs and laundry tub faucet.
2. Please obtain a plumbing permit for the installation of the dishwashing machine. Also, please provide documentation, from a licensed plumber, showing that the installation is code compliant. (air-gap installation, water arresters, etc.)
3. Please properly replace the defective bathroom electrical outlet as required by code.
4. The inspection revealed the possibility that there may be an abandoned private well located in the front yard of this property. Please provide documentation, from a licensed plumber, indicating that this well has been properly abandoned.
